PAPERS

Software
Selection of Optimal Software Reliability Growth Models Using a Distance Based Approach ............................................. K. Sharma, R. Garg, C. K. Nappol, and K. K. Garg 266

Prognostic Health Management
Anomaly Detection Through a Bayesian Support Vector Machine .................. V. A. Sotiris, P. W. Tse, and M. G. Pecht 277

Networks and Systems
A Framework for Reliability Approximation of Multi-State Weighted k-out-of-n Systems .................................................. Y. Ding, M. J. Zuo, A. Lisnianski, and W. Li 297
Dynamic Bayesian Evaluation Method for System Reliability Growth Based on In-Time Correction ............................................. Y-Y. Xing, X-Y. Wu, P. Jiang, and Q. Liu 309
Exact Reliability Formula for Consecutive-k-Out-of-n Repairable Systems .............. X. Liang, Y. Xiong, and Z. Li 313
Lifetime Reliability for Load-Sharing Redundant Systems With Arbitrary Failure Distributions .............................................. L. Huang and Q. Xu 319
Tolerance Limits for k-Out-of-n Systems With Exponentially Distributed Component Lifetimes ............................................. A. J. Fernández 331
Computing Multi-State Two-Terminal Reliability Through Critical Arc States That Interrupt Demand ........................................... C-C. Jane and Y-W. Laih 338

Maintenance
Modeling Failure Modes for Residual Life Prediction Using Stochastic Filtering Theory ................................. M. J. Carr and W. Wang 346
Repair and Replacement Decisions for Warranted Products Under Markov Deterioration ................................................. Y. Pan and M. U. Thomas 368
A Periodic Replacement Model Based on Cumulative Repair-Cost Limit for a System Subjected to Shocks ............................... S.-H. Sheu, C.-C. Chang, Y.-L. Chen, and Z. G. Zhang 374
The Effect of a Pro-Rata Rebate Warranty on the Age Replacement Policy With Salvage Value Consideration .......................... Y-H. Chien 383
Optimal Maintenance Strategies for Wind Turbine Systems Under Stochastic Weather Conditions ................................................. E. Byon, L. Naizm, and Y. Ding 393

(Contents Continued on 265)
Estimation

Estimation of Time to Hard Failure Distributions Using a Three-Stage Method ........................................ .......................... I-T. Yu and C-D. Fuh 405
Minimum-Distance Parametric Estimation Under Progressive Type-I Censoring ........................................... N. Balakrishnan, L. Bordes, and X. Zhao 413
Parameter Estimation Methods for Condition-Based Maintenance With Indirect Observations ....................... A. Ghasemi, S. Yacout, and M-S. Ouali 426

Component Reliability
